

MORE INSIDE...SEE HOW YOU HELPED CHANGE AND IMPACT LIVES!

NANCY FOUND FREEDOM... THANKS TO YOU!

Nancy is mobile now with her new wheelchair...and it's

All Because of YOU!

She used to borrow wheelbarrows from her neighbors to get around since she can't walk or stand. She depended on others to push her wherever she needed to go.

When there wasn't any wheelbarrows available for her to use, she would crawl out to the road to find a motorbike taxi. She has even crawled to church over a mile away!

Now that Nancy has a wheelchair, she is excited about her ability to do things she never could before. She has a new-found freedom and a new future!

She is even looking into a school specifically geared to the disabled to learn a skill where she will be able to support herself.

Only time will tell how the schooling will work out, but one thing we do know for sure...

Thanks to you...

YOU HAVE FOREVER CHANGED HER LIFE!

From Limitations to Freedom

Holey Dirt Floor!

When the rains come, so does the flooding in her home!

BUT because of YOU...that isn't true anymore!

Your support to fix her floor gave Eunice and her family a dry and safe home.

Before the new floor, the rain flooded the house forcing Eunice to send her children to a neighbor's to spend the night to wait for the house to "unflood" and dry out.

It was miserable for the kids to leave their home, and not so great for the household furniture either.

**Your gift of a dry, safe home gave them relief and JOY!
Jumping up and down joy!**

Joy! Joy! Joy!

I wish you could see the video of Eunice and her daughter jumping, laughing, and clapping while giving thanks for all your support.

Seeing their sheer joy and excitement over their new concrete floor would have you jumping with Joy too!

This is All because of You....You did this...Thank You!

**One Thing Led to Another...But YOU took care of that!
You always make it possible to respond to urgent needs quickly.**

Jordan, a local student had a severe leg wound. He was supposed to return to the hospital every week for cleaning and medication.

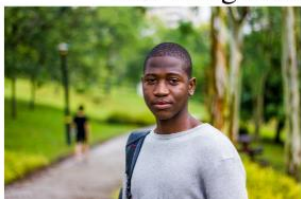

When he hadn't come back to the hospital, a nurse went to check on him. The wound was worse! She asked why he hadn't come back for treatment.

He said he had no money for travel or for the treatment. His family was struggling to keep food on the table and actually they were out.

Making it worse, Jordan's diabetic mom needed a battery for her insulin pump but had no money.

Once again, YOUR Support for urgent needs paid for Jordan to return for cleanings and medications, purchased a battery for mum's insulin pump, and had food brought to the family.

One thing led to another and **Your support was there to cover all things** - medical care for Jordan and his mum, and filled the home with food.

Thanks to you they got the help they needed when they needed it!!

Thank You!

She Gets a Second Chance at Life
Because You Cared

They believe she is only twelve years old.

**Thanks to YOU she will get to see her 13th birthday.
Erokamono! (Thank you)**

Sara, (not her true name), was found by the police deep in the forest,
unconscious, badly beaten, and brutally raped.

The hospital called Olalo of Hope for help since
there was no one else to call.

Sara regained consciousness days later but was unable to speak.

Even after weeks passed, we still didn't know her name, who did this to
her, where she was from or who her family was.

The local TV and radio stations tried to spread the word
to find her family...sadly to no avail.

**You made it possible to get Sara everything she needed
thanks to your generous support!**

Your generosity covered all her medical expenses,
her food, clothing, and hygiene items.

Your overwhelming support covered the costs of bringing in a special
gynecologist from quite a distance away due to the
severity of her injuries from the rape.

Even today, who she is, who did this to her, or where she is
from is still unknown.

Sara has moved into a Recovery Center where she is safe
and surrounded by caring and loving people.

Please continue to pray for Sara that her family is found,
and she has a total recovery.

She got this far because of YOU.

It was your generous support that made all this happen!

Finally Conscious

New Clothes

Off to a Recovery Center

How YOU Can Make Your Support Go Further!

We are using DonorSee to bring you up close & personal (thru video) to the person asking for your help.

So how does that let your donation go further?

ALL of your donation (except the credit card fee) goes right to the cause when you become an Olalo Follower on DonorSee. No other fees are taken to reduce your gift!

Check out the need right below...it's on DonorSee right now!
<https://donorsee.com/project/13957>

(FYI...All other platforms are still available for donations.)

Baby Christine and Christopher Need Your Help

Christine and Christopher are 2-month old twins. Both are seriously ill in the hospital.

Christopher is suffering with a severe case of malaria and a bacterial infection.
What is making Christine so ill is still unknown.

Both are unable to be fed and are currently on a drip line until they become stable.

Their mother is living in an abusive situation and has no money or support from her family. With hospital costs increasing, tests still being done, and unknown treatments awaiting, she is worried and desperate.

Your gift today will help cover the hospital costs and forthcoming treatment for these babies.

Having such severe illnesses at such an early age could mean a long recovery at home for them both.

Your gift today will bless this sweet family with hope knowing they can continue with treatment.

Yes! I Want to Help with Christine and Christopher's Recovery!
